FYI – you were all chemists on this case. The lab numbers are [REDACTED] I have the receipts but we may have to compile the rest of the data at some point.

Hi Dan,

Thanks for the question - its a well founded one and we apologize for not being clear on your summons. Although the summons only had 3 or 9 sample lab numbers, we are proceeding on all 9 samples at trial. We figured that, with your permission and if you are comfortable doing it, it would be more economical to call you to testify as to the work you did but then have you also review the marijuana case notes of Lisa Glazer on [REDACTED] and also the case notes of Annie Khan and Kate Corbett (confirmatory chemist) on [REDACTED] and offer an opinion to those drugs based on their notes to the other drugs (if you can). The judges here are sympathetic to the chemists and have recently allowed our motions to have other chemists to testify at trial to what someone else did, subject to their having the requisite training and experience. We also got guilty's on both of those DPH chemist trials. It would be a waste of resources to call 4 some chemists for this one trial. There are still some Class E certs not back from the lab yet, so we are still in limbo until we find out who did those.

Would you be comfortable testifying to the others' work?

Thanks,

Susan

Good morning Susan. I just received a summons for Commonwealth v. [REDACTED] on 6/29/10 and I had a couple of questions. The summons I received only has the lab numbers of 3 of the 9 samples that we received. Is it only those 3

samples being tried in this case? Also, will the other chemists involved with the other samples need to be summonsed as well? Thanks for your time.

-Dan

Hi Dan,

I got the case notes on [REDACTED] I thought I had your c.v. on file but its not in my folder. When you get a chance, would you please email me another copy? Thanks!

Susan

Hi Susan. I'd be happy to compile the data and send it out to you. Could you please just fax us over a written request, as per our lab policy, to the main lab number (listed below)? Thank you so much!
